CONTRACTED SERVICES

Mahantango, Inc.
Waste Management

This dumpsite is located at the back of the ball field complex, at the edge of the parking lot. Community support was fantastic with 50 enthusiastic volunteers coming out on the day of the cleanup. In addition, several local organizations helped to provide refreshments for the hungry workers.

After a long morning of hard labor slugging trash and tires through the muddy forest, volunteers sat down to pizza, donuts and fruit. There wasn't a single slice leftover as exhausted volunteers made quick work of the pizzas that were ordered for lunch.

Although still active, talks are underway to discuss deterrents to dumping at this site. Debris remains in the unstable slope at the edge of the parking lot. For safety reasons, this will be removed by a contractor rather than volunteers.

Cleanup Date: 10/10/2009
Township: Coal
Trash Removed: 1.16 tons
Tires Removed: 202
Volunteers: 50
Volunteer Hours: 120

"The Bunker Hill cleanup was a great way for the community to get together and make a difference. Cleaning up the trash has made the park a better place to play."
