

# Forest Service Road 133-325

## Allegheny National Forest, McKean County

### **VOLUNTEERS**

Local Citizens  
PA Cleanways of McKean County  
Wetmore Township

### **CONTRACTED SERVICES**

McKean County D&D Builders,  
Inc.

Though not large, this site was an eyesore and growing bigger. It took just a few volunteers a couple of hours to clean and now it looks much better. The six volunteers included three from PA CleanWays of McKean County, a father and son from McKean, and a Wetmore Township Worker.

The Allegheny National Forest is one of 15 National Forests in the Eastern United States managed by the Forest Service, an agency of the U.S. Department of Agriculture. The site is along an unnamed connecting road between two Forest Service Roads near the Tionesta National Scenic Area and the National Recreation Trail along State Route 6.

**Cleanup Date: 10/10/2009**  
**Township: Wetmore**  
**Trash Removed: 0.57 tons**  
**# Volunteers: 6**  
**# Volunteer Hours: 12**

*“This was a small, but important clean up. It was located on Allegheny National Forest Land and was growing in size. In addition, illegal camp fires were being set and several trees had been scorched at least twenty feet up. The partnership between PA CleanWays, U.S. Forest Service, and Wetmore Township Officials allowed us to clean up the site, close off the area to prevent future dumping, and prevent future forest fires.”*

*Jim Clark,  
PA CleanWays of  
McKean Secretary*

This cleanup is funded by the Utilities Programs,  
United States Department of Agriculture.

This institution is an equal opportunity provider, employer, and lender.
